

KOMITMEN

Commitment

Sebagai Subholding Gas, PT Perusahaan Gas Negara Tbk (PGN) memperoleh amanat dari PT Pertamina (Persero) untuk melaksanakan kegiatan infrastruktur gas nasional secara terintegrasi. PGN membangun kerja sama dengan produsen gas bumi untuk melakukan pengangkutan (transmisi) gas bumi melalui jaringan pipa bertekanan tinggi dari lokasi produsen ke stasiun gas melalui kontrak perjanjian *Gas Transportation Agreement* (GTA).

Pada sektor distribusi, PGN melakukan penjualan gas bumi langsung dari PGN kepada konsumen melalui jaringan pipa distribusi. Pangsa pasar distribusi adalah sektor rumah tangga yang juga merupakan kelompok konsumen terbesar PGN (99,43%).

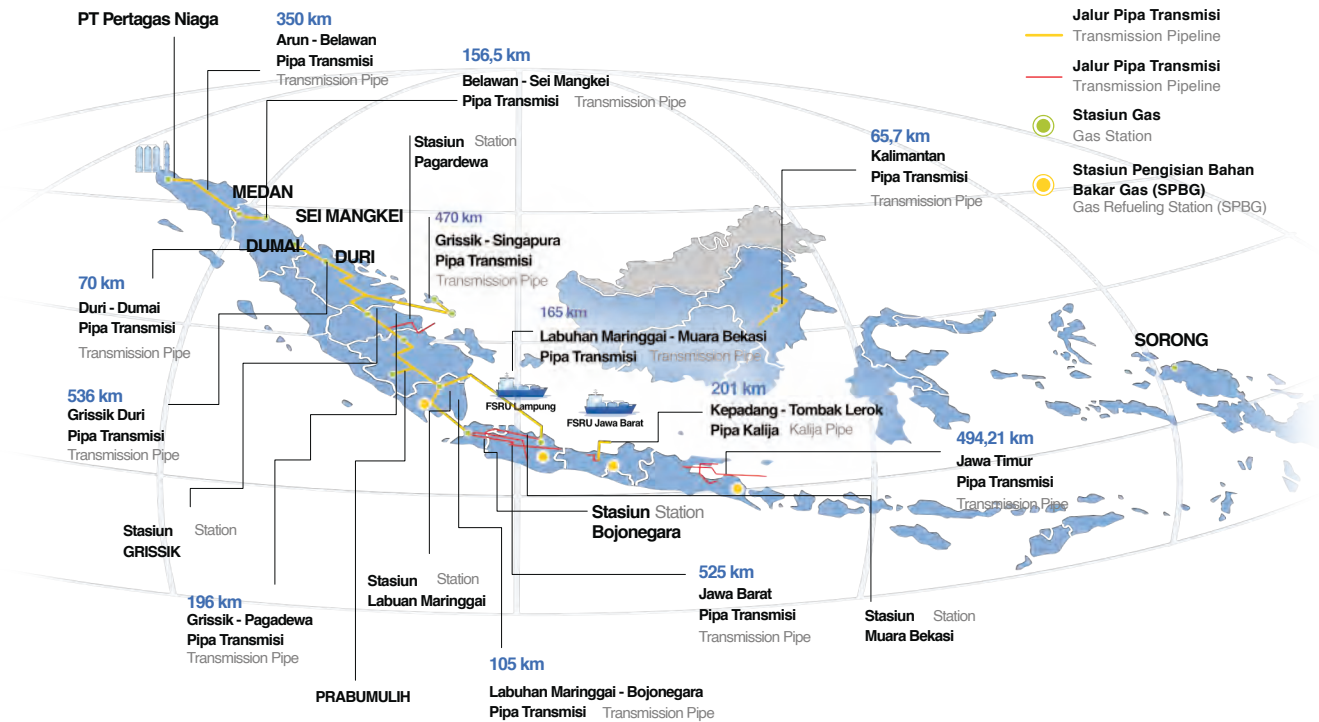

As Gas Subholding, PT Perusahaan Gas Negara Tbk (PGN) as mandated by PT Pertamina (Persero) carries out national gas infrastructure activities in an integrated manner. PGN builds cooperation with natural gas producers to carry out natural gas transportation (transmission) through high-pressure pipelines from the producer's location to the gas station through a *Gas Transportation Agreement* (GTA) contract.

In the distribution sector, PGN sells natural gas directly from PGN to consumers through distribution pipelines. The distribution market share is the household sector which also constitutes PGN's largest consumer group (99.43%).

PGN mengintegrasikan infrastruktur gas bumi di Indonesia dan mengupayakan peningkatan akses energi ke seluruh lapisan masyarakat baik melalui moda infrastruktur pipa maupun non pipa. Saat ini, PGN telah beroperasi di 73 kabupaten/kota, di 17 Provinsi di Indonesia dan terus membuka wilayah baru. Portofolio pengelolaan infrastruktur hilir gas bumi PGN Group sampai akhir 2022 mencakup 95% dari infrastruktur hilir gas bumi yang sudah terbangun dan beroperasi. Untuk pengelolaan jaringan gas bumi rumah tangga dan pelanggan kecil sesuai penugasan Pemerintah mencakup 73 Kabupaten/Kota di seluruh Indonesia dengan panjang pipa jaringan gas yang dikelola sekitar 14.326 km. **[2-6]**

PGN integrates natural gas infrastructure in Indonesia and strives to increase access to energy for all levels of society, both through pipeline and non-pipeline infrastructure modes. Currently, PGN has been operating in 73 regencies/cities, in 17 provinces in Indonesia and continues to open up new areas. As of the end of 2022, PGN Group's natural gas downstream infrastructure management portfolio covers 95% of the natural gas downstream infrastructure that has been built and operating. As for the management of the natural gas network for households and small-scale customers in accordance with the assignments from the Government, it covers 73 regencies/cities throughout Indonesia with a managed gas network pipeline length of approximately 14,326 km. **[2-6]**

Dalam rangka mencapai tujuan visi dan misi perusahaan, PGN menyusun strategi pengelolaan operasional yang optimal untuk memperoleh kegiatan usaha yang berkelanjutan berdasarkan tujuan jangka menengah dan jangka panjang.

In order to achieve the goals of the Company's vision and mission, PGN has developed an optimum operational management strategy to obtain sustainable business activities based on medium and long term goals.

Target Jangka Panjang Long Term Target	Target Jangka Menengah Medium Term Target
Pengembangan usaha di pasar internasional Business development in the international market	<ol style="list-style-type: none"> 1. Pengembangan bisnis gas 2. Meningkatkan <i>competitiveness</i> Perusahaan melalui penyediaan layanan yang efisien 3. Implementasi budaya HSSE (<i>Health, Safety, Security, Environment</i>) <i>excellence</i> di seluruh operasional Perusahaan <ol style="list-style-type: none"> 1. Gas business development 2. Boost the Company's competitiveness through the provision of efficient services 3. implementation of excellent HSSE (Health, Safety, Security, Environment) culture throughout the Company's operations

PGN berkomitmen untuk terus meningkatkan pemanfaatan gas bumi guna merealisasikan kemandirian energi nasional, terutama dalam proses transisi energi Indonesia menuju *Net Zero Emission* (NZE) di 2060. Komitmen ini dilaksanakan dengan Program Strategis Gas Bumi Periode 2021-2026 melalui Program Strategis Subholding Gas yaitu Tujuh Program Gasifikasi Nasional atau "Sapta PGN+." [3-3]

PGN is committed to continuing to increase the use of natural gas in order to realize national energy self-sufficiency, especially in Indonesia's energy transition phase toward Net Zero Emissions (NZE) by 2060. This commitment is carried out with the Natural Gas Strategic Program for the 2021-2026 period through the Gas Subholding Strategic Program, namely the Seven National Gasification Programs or "Sapta PGN+." [3-3]
